

MAZDA CX-3

THE ART OF SIMPLICITY

Our design philosophy is simple, yet highly challenging to accomplish. Everything we create must capture motion, even at a standstill. In the same instance, it should evoke emotion. This process requires a human touch, hands on clay, shaping the form. Eliminating all that is unnecessary, leaving only what is beautiful. Lines should effortlessly draw your eye to every angle and curve. This sense of movement inspires an urge to get behind the wheel. We call this Kodo: "Soul of Motion" design.

Power sunroof with sliding and tilt glass.

A NEW ERA OF INDIVIDUALITY

New levels of freedom. New levels of versatility. New levels of pure enjoyment on the road. A well-planted stance; a sleek profile with short overhangs; striking good looks, The new Mazda CX-3 is designed and engineered to stimulate the emotions by closely matching human sensibilities.

18" alloy wheels on the 2.0L High.

16" alloy wheels on 1.5L and 2.0L.

The perfect vehicle for expressing your individuality and spirited lifestyle.

Mazda Connect 8-inch TFT LCD multi-information touchscreen display with 360° View Monitor.

Seamless connectivity with Wireless Apple Carplay®.

A NEW ERA OF COMFORT & CONVENIENCE

All extraneous details have been stripped away to accentuate motion, space and clarity. Colors work in harmony. Natural light emphasizes a continuous clean line that wraps around the entire cabin, creating a more open and calming space for you and your passengers.

The Human Machine Interface (HMI) with Mazda Connect is designed to enhance the in-car connectivity experience with minimal distraction to driving.

With Apple CarPlay® and Android Auto™, you can easily access your compatible smartphone's contacts, music and more at the touch of a button.

Drive Selection Switch on the shift gate allows switching to Sport Mode for a more exhilarating drive.

Wireless charging for Qi-compatible mobile devices.

Full-colour Active Driving Display shows driving information in your line of sight.

ENGINEERED TO EXHILARATE

The strict adherence to the philosophy of 'Jinba-Ittai', the sense of car and driver as one, has created a driving experience that's truly next generation. The G-Vectoring Control (GVC) offers confidence-inspiring controllability, while Skyactiv engines deliver exhilarating performance.

SKYACTIV-VEHICLE ARCHITECTURE

With our revolutionary Skyactiv technologies, redesigned from scratch to provide breakthrough performance, Mazda has consistently aimed to provide the joy of 'Jinba-Ittai' driving.

Now we have developed our next-generation Skyactiv-Vehicle Architecture that focuses on the human-centered design philosophy. The new vehicle architecture coupled with award winning powertrains provide effortless responsive driving that is in perfect harmony with the driver's intention, creating the ultimate 'Jinba-Ittai' driving feel.

SKYACTIV TECHNOLOGY

SKYACTIV-G
New generation petrol engine with improved fuel efficiency and torque.

SKYACTIV-BODY
Light, rigid and robust body that ensures safe and joyful driving.

SKYACTIV-DRIVE
Ideal transmission designed for smooth driving and efficiency.

SKYACTIV-CHASSIS
Lightweight chassis that delivers driving pleasure and comfort.

A NEW ERA OF SAFETY PERFORMANCE

Avoiding an accident in the first place is always the safest route. With the available i-Activsense suite of safety features, sophisticated safety innovations alert you to hazards to help you avoid collisions—or lessen their impact. These features help improve your visibility and awareness of the road and monitor the traffic conditions around you.

i-ACTIVSENSE

High Beam Control (HBC)

HBC helps the driver see better at night by maximizing opportunities to use the high beams.

Blind Spot Monitoring (BSM) Rear Cross Traffic Alert (RCTA)

By scanning blind spots behind your vehicle, sensors detect unseen vehicles to alert you during lane change or reversing.

Lane Departure Warning System (LDWS)

LDWS monitors road markings and alerts you if you are straying from your lane when travelling over 65km/h.

Driver Attention Alert (DAA)

The system activates at speeds above 65 km/h and begins to “learn” the driver’s habits, then alerts the driver before fatigue becomes a factor.

Smart City Brake Support (SCBS) Front & Rear

SCBS automatically applies the brakes if it detects there is a danger of collision at forward speed of 4 - 80 km/h and reverse speed of 2 - 8 km/h.

Available on selected models only. These systems are not a replacement for safe and attentive driving. Please drive carefully at all times and do not rely on technology to prevent an accident.

MAZDA CX-3 TECHNICAL SPECIFICATIONS

Variant	1.5L PLUS		2.0L PLUS		2.0L HIGH	
	SKYACTIV®-G 1.5L		SKYACTIV®-G 2.0L
