

# MAZDA BT-50

#### THE POWER TO PERFORM

Mazda BT-50 offers you the choice of two powerful, responsive and fuel-efficient diesel engines to perfectly match your individual needs wherever life or work takes you.

On-road or off, both powerplants: 3.0L turbocharged and 1.9L turbocharged – deliver the quiet, effortless performance that lets you confidently enjoy their unmatched versatility and dependability.

A 6-speed automatic that contributes to BT-50's excellent response and fuel economy. The rear differential lock instantaneously maximizes driveability over rough terrain.

3.0L in-line 4 cylinder 16 valve DOHC intercooled turbo diesel

1.9L in-line 4 cylinder 16 valve DOHC intercooled turbo diesel

### **UNCOMPROMISING SAFETY**

At Mazda, driving pleasure means more than just outstanding performance and handling. Because to us, feeling secure and well-protected is another essential component of enjoyable driving. And that is why BT-50 is equipped with the same leading-edge safety features demanded in passenger cars.

#### **ADVANCED SAFETY TECHNOLOGIES**<sup>^</sup>

#### Automatic High Beam (AHB)

Automatically prevents high beam from dazzling other drivers on the road.

#### Forward Collision Warning (FCW)

Detects a potential collision in front of the vehicle and alerts the driver.

^ Available on selected models only. These systems are not a replacement for safe and attentive driving. Please drive carefully at all times and do not rely on technology to prevent an accident.

#### Blind Spot Monitoring (BSM) Rear Cross Traffic Alert (RCTA)

By scanning blind spots behind your vehicle, sensors detect unseen vehicles to alert you during lane change or reversing.

#### Auto Emergency Braking (AEB)

AEB continuously monitors traffic conditions ahead for possible hazard. When the system judges a collision is unavoidable it automatically applies emergency braking to avoid or reduce the severity of a collision.

#### Lane Departure Warning System (LDWS)

Monitors road markings and alerts you if you are straying from your lane.

#### Adaptive Cruise Control (ACC)

Detects the vehicle in front and adjusts your cruise control speed to maintain a safe distance.
